**7. QUESTIONS ON NOTICE**

## 7.1 ERA Water Chair Attendance Request – Cr Graham Webster

1. Now that Council has now received a copy of the letter from the Chair of ERA Water to the Burnside Council advising that all Constituent Councils must contribute \$741,418 for this 2018/19 financial year, can the Mayor invite the Chair of ERA Water to address Council on ERA Water's challenges, and in particular explaining:
  - Will Constituent Councils be asked to increase their current \$12.6m capping in carrying ERA Water's debt?
  - Will Constituent Councils be charged more than the equivalent S A Water price for recycled water?
  - When will ERA Water achieve an operating surplus?
2. Will the CEO advise why Council was not informed of the detail of the above letter at the last Council meeting given that our bottom line will be hit with a considerable additional expense in this financial year?

### Mayor Response – Provided in relation to Question 1

Yes Councillor, I can of course invite the Chair of ERA Water to discuss the questions however this would best be done as a motion with direction from Council.

### Administration Response – Provided by CEO in relation to Question 2

Council will recall that when the draft budget was being prepared, Administration advised Members that we could expect an increase in the order of approximately \$20,000 for irrigation of Councils parks, gardens and reserves. This 'cost pressure' was also declared and discussed at the Council meeting on 21 May 2018, when Council considered and adopted the ERA Water draft 2018/19 budget and the CEO was specifically asked the question on what the likely increase would be.

Council was also advised that the Constituent Council CEOs were meeting to consider what administrative support they could offer ERA Water in order to curtail the operational costs.

Council was not informed at the meeting held on 20 August 2018 given that Council had already been made aware of the implications on the ERA Water draft budget at its 21 May 2018 meeting.

Separate to this, the \$741,418 figure referenced relates to the Constituent Councils taking 214.7ML – Walkerville's share being 28 ML at an assumed price of \$94,754 based on SA Water price of \$3.384 /kl – however, as late as Friday 7 September, ERA Water Board considered a revised 2018/19 budget, in part as part of BR1, and has subsequently determined that the total estimated volume of recycled water produced in 2018/19 will be 120ML NOT 270ML and hence, it being assumed that the total volume of water to the Constituent Councils will be 120ML NOT 214.7ML – it being noted that for Walkerville, this will now equate to 15.65ML NOT 28ML at a cost of \$52,741 NOT \$94,754, based on the price forecast for SA Water in FY2019 of \$3.37/kl.

This information was formally conveyed to the CEO by ERA Water on 12 September 2018 and appears as agenda item 14.4.8.

## 7.2 Council Operations – Cr Gianni Busato

Is the CEO aware of any behaviour from Elected Members towards staff that could be considered intimidating, harassing or even interfering in day to day operations of the Council?

### Administration Response – Provided by CEO

As you know, I have a reputation for addressing bad behaviour thoroughly and swiftly. I do not shy away from dealing with any issues brought to my attention, irrespective of who is involved.

I have received no formal complaints with respect to Elected Members intimidating, harassing or interfering in the day to day operations of Council. However, anticipating your next question, it would be inappropriate of me, in this public forum, to disclose matters relating to informal complaints that I have dealt with. I'm sure all of Council will agree, that due process must always be followed.
