## 9. QUESTIONS WITHOUT NOTICE

### Question without Notice - Cr James Nenke

I was wondering if Administration could provide some advice as to what does a strategic management plan constitute? Why does a community wellbeing strategy and a public art strategy constitute a strategic management plan when the asset management document in the agenda does not constitute a strategic management plan?

Section 122(1)(a) of the *Local Government Act 1999* clearly states that an Infrastructure Management Plan must be adopted by Council. The Act also states that these plans will form part of the Council's strategic management plans. I am wondering how these plans do form strategic management plans. Do strategic management plans need to be adopted and do they need go through community engagement?

### Response from Administration

The Asset Management Plan is a strategic management plan of Council. The process for adopting that particular plan is different to other strategic documents. The Public Art Strategy is a stand-alone document similar to other strategic documents such as the Community Strategic Plan and the 2020-2024 Living Walkerville: wellbeing for every age and stage strategy which will be considered by Council tonight. The Asset Management Plan goes through an adoption process of Council as part of the Annual Business Plan and Budget process.

Every year that Council considers the Annual Business Plan and Budget it also considers the 10 year asset management plan. It is a strategic plan, it is adopted by Council and it does go out for public consultation as part of our annual business plan and budget process.
