That Council resolves to end its confidential deliberations pursuant to Section 90(2) of the *Local Government Act 1999* and re-admit the public.

Summary

The City of Unley have officially requested to join East Waste as a Constituent (Member) Council. In order for this to occur, the unanimous approval of all existing Member Councils is required.

Additionally, a cyclic legislative review of the Eastern Waste Management Authority Charter is due and proposed changes for the Town of Walkerville's endorsement are outlined in Table 1 of Attachment A.

Background

In June 2021 East Waste responded to an open Request for Tender from the City of Unley for the collection and processing of their waste, recyclables & organics. Two tenders, a conforming (Non-member model) and non-conforming (Member model) were submitted. East Waste previously provided waste collection and processing services for the City of Unley from 2007–2014, under a non-member model.

East Waste received correspondence from the City of Unley on 11 February 2022, advising it had been selected as the preferred tenderer under a membership model (that is the City of Unley joining East Waste).

Discussion/Issues for Consideration

Impacts of the addition of the City of Unley as a constituent member of East Waste will result in a revision of the equity structure. As per Clause 57.1 of the East Waste Charter, currently each of the Constituent Councils have an equal (one-seventh) share in East Waste which is 14.29% or \$174k for each Constituent Council as at 30 June 2021.

Introducing the City of Unley creates an eighth equal shareholder and reduces existing Member Council's shareholding to 12.5%.

Should this occur, there is also a pre-empted saving in Year 1 to existing Member Councils collectively of \$607k, which would equate to a reduction of \$24k in waste collection and processing fees for the Town of Walkerville (to be taken up at Budget Review One 2022-23.)

Additional benefits of the addition of the City of Unley are outlined in the letter from East Waste appearing as Attachment A to this report.

Options for Consideration

Option 1

1. That Council endorses the City of Unley becoming a Constituent Council of the Eastern Waste Management Authority, acknowledging the financial, strategic and operational benefits that will be realised, as identified in the independent Business Case Analysis.
2. That Council endorses the proposed amendments to the Eastern Waste Management Authority Charter to facilitate the City of Unley becoming a Constituent Council, namely inclusion of the City of Unley as a Constituent Council and the consequent amendments to the definition of 'Constituent Council' and to Clause 21.1, to increase the number of Directors from eight (8) to nine (9).
3. That Council endorses the revision of Constituent Council equity share consequent upon the membership of the City of Unley so that each Council will, from the date of Gazettal of the amended Charter, have a 12.5% equity share in the Eastern Waste Management Authority.
4. That Council notes that the above decisions are subject to the City of Unley obtaining Ministerial approval to become a Constituent Council of the Eastern Waste Management Authority.
5. That Council supports and endorses all other amendments proposed by the East Waste Board to the Eastern Waste Management Authority Charter as shown in Attachment C as part of the prescribed Charter review.

Option 2

That Council does not endorse the City of Unley becoming a Constituent Council of the Eastern Waste Management Authority, and as such directs Administration to undertake the following alternate action(s):

- _____

Analysis of Options

Option 1 delivers an outcome that not only allows for one of Council's regional subsidiaries to grow and provide further services to additional customers, but also delivers savings to Council.

Option 2 provides for the status quo to be maintained.

Financial Implications

The Town of Walkerville is projected to receive a saving of \$24k to its waste collection and processing operating expenditure if the City of Unley joins East Waste.

Community Implications

There are no known Community implications.

Governance Implications

There are no known Governance implications.

Preferred Option & Reasoning

Administration recommends the endorsement of the City of Unley becoming a constituent Council Member of East Waste due to the forecast reduction in waste collection and processing fees as well as benefits for East Waste as a Subsidiary.

Dear Scott,

Confidential: New Member Council Proposal and Charter Review

It is with excitement that I write to you outlining a proposal from the City of Unley to join East Waste as a Constituent (Member) Council. East Waste have undertaken a large body of work over the last nine-months working towards this position and we believe there are a number of financial and non-financial benefits with the City of Unley joining the Town of Walkerville and other existing Councils as an Authority member. These are outlined further in this letter.

In order for this to occur, the unanimous approval of all existing Member Councils is required, and it would be appreciated if you could prioritise the application to your Elected Member Body as soon as possible so we can provide the City of Unley with advice and if unanimously approved, progress with the onboarding process.

Additionally, a cyclic legislative review of the Eastern Waste Management Authority Charter is due and proposed changes for the Town of Walkerville's endorsement are outlined in this letter.

Background

In June 2021 East Waste responded to an open Request for Tender from the City of Unley for the Collection and Processing of their Waste, Recyclables & Organics. Two tenders, a conforming (non-member model) and non-conforming (Member model) were submitted. East Waste previously completed the City of Unley collections from 2007–2014, under a non-member model and from this gained valuable operational insight which was heavily considered in the submission from a financial, logistics and risk perspective.

Pleasingly, East Waste received correspondence from the City of Unley on 11 February 2022, advising it had been selected as the preferred tenderer under a membership model (that is the City of Unley joining East Waste). Since this time East Waste has been refining several points with the City of Unley and undertaking an independent Business Case Analysis.

Charter Requirements

Admission of a new Constituent Council requires the unanimous approval of all existing Member Councils, along with several other requirements, which are clearly spelt out in the East Waste Charter, specifically under Section 14.

14. INCOMING CONSTITUENT COUNCILS

- 14.1 Any council may become a Constituent Council (an Incoming Constituent Council) if:
- 14.1.1 it makes written application (in a form approved by the Board) to become a Constituent Council and agrees to be bound by this Charter (noting that Shares will change);
 - 14.1.2 its application is supported by a thorough, realistic, independent, and diligent Business Case analysis;
 - 14.1.3 it pays any joining fee or other payment as may be required by the Board;
 - 14.1.4 the Constituent Councils approve the application and revised Shares by Unanimous Decision; and
 - 14.1.5 the Minister approves.
- 14.2 An Incoming Constituent Council:
- 14.2.1 is jointly and severally liable with the other Constituent Councils for the debts and liabilities of the Authority incurred before or after the date it becomes a Constituent Council, or as otherwise agreed;
 - 14.2.2 is bound by a decision made or step taken by the Board in the affairs of the Authority before it became a Constituent Council to the extent such decision or step was recorded in minutes of the Board's meetings or otherwise notified to the Incoming Constituent Council before it made application to become a Constituent Council; and,
 - 14.2.3 upon becoming a Constituent Council has the Share agreed between the Incoming Constituent Council and the Constituent Councils.

With respect to Clause 14.1.2, it is understood that the tender and assessment process undertaken by the City of Unley sufficiently satisfies this requirement and the City of Unley will be seeking the Minister's approval (assuming all existing Constituent Councils approve) as a final step and as required by Clause 14.1.5.

Business Case Analysis

While undertaking a detailed and thorough tender submission, East Waste engaged the services of BRM Advisory to provide an independent review of East Waste's tender submission, specifically the financial models, risk, Australian Competition & Consumer Commission concerns and governance matters. The Business Case Analysis was extremely thorough, particularly with the financial component and a copy of the Business Case is attached (refer Attachment A) to assist Council in making a decision.

From a financial perspective, the basis of the Business Case was the submitted tender price, assumptions and the calculations behind this. Whilst important and showing a benefit to Member Councils collectively, in the order of \$0.700M, given the City of Unley will not join until next financial year (assuming all existing Constituent Councils approve), it is largely theoretical as there are a high number of variables each year with the East Waste budget. To provide both the Board and Member Councils with a more accurate Year One assessment, should the City of Unley join, the draft FY2023 budget has been reworked and also analysed by BRM Advisory (refer Section 3.3 of Attachment A) on the assumption the City of Unley becomes a constituent Council.

This shows that despite increases in several cost centres outside East Waste's control (such as fuel), the saving to existing Member Councils collectively is \$607k, by having the City of Unley as a Member for the entire FY23 year. **For the Town of Walkerville the budgeted saving in Year 1 alone is \$24k.**

The Business Case also notes the benefit of the increased aggregated purchasing power that could be derived on waste related contracts with a collegiate approach.

From a non-financial perspective, the Business case identifies a number of benefits including:

- Increasing Membership is consistent with East Waste's 2030 Strategic Plan and Annual Business Plan;
- Strengthens the collective advocacy voice of East Waste;
- Logistically attractive as it borders two existing Member Councils;
- Increases the reach of East Waste's already successful education and behaviour change program;
- Increased attractiveness of East Waste as a partner for grants and pilot programs;
- Increasing the size of the Board to nine members addresses the existing anomaly where it is possible that the Board may be unable to reach a majority decision;
- No significant risk of note; and
- No foreseen Competitive Neutrality concerns.

While not identified within the Business Case, there is strong alignment between East Waste's Strategic Plan and the City of Unley's Waste Management & Resource Recovery Plan which will only serve to further drive positive environmental, social and circular economy outcomes for all Councils.

Revision of Shares

Approving the City of Unley as a Constituent Council requires unanimous approval of revised shares (Clause 14.1.4 of the East Waste Charter).

As per Clause 57.1 of the East Waste Charter, each of the Constituent Councils, have an equal (one-seventh) share in East Waste. Currently this is 14.29% and with total equity on 30 June 2021 being \$1.219M this equates to \$174k for each Constituent Council. It is worth noting that the distribution of equity only takes real effect upon the exit of a Member Council or upon the winding up of the Authority, at which time an accurate determination of each equity share would be made.

Introducing the City of Unley creates an eighth equal shareholder and reduces existing Member Council's shareholding to 12.5%, which equates to a reduction of approximately \$22k.

East Waste Board Recommendation

The East Waste Board has thoroughly considered the City of Unley's proposal including the Independent Business Case to join East Waste as a Member Council, leading to it confidentially resolving at a Special Board meeting on 21 March 2022 to (in part):

Moved Cr Ashby that the Board:

2. *Recognising the benefits as outlined in the Independent Business Case Analysis of the City of Unley joining East Waste as a Constituent Council, supports the City of Unley's application, subject to the unanimous support of existing Constituent Councils.*
3. *Endorses not charging the City of Unley a joining fee, subject to feedback from Constituent Councils, given the year-on-year savings which are derived with the City of Unley being a member of East Waste.*

Seconded Mr Cammell

Carried

Clause 14.1.3 of the East Waste Charter provides the Board with the option of applying a joining fee to an incoming Member Council. In considering this, the Board agreed with the recommendation within the Independent Business Case to not charge a joining fee. This is consistent with the City of Prospect not being charged a joining fee upon their admission in 2017.

Charter Review

The East Waste Charter is required by legislation to be reviewed at least once every four (4) years. Clause 3.5 of the East Waste Charter states:

3.5 The Constituent Councils may review this Charter at any time but must in any event review this Charter at least once in every four years.

The East Waste Charter was last reviewed in September 2017, in line with the admission of the City of Prospect as a Member Council. A review of the Charter was held over in 2021 due to the possibility of the City of Unley coming onboard, which would result in another change to the Charter. When admitting a new Member Council, amendments require a unanimous approval.

A tracked version of the proposed amendments to the Charter is contained within Attachment B of this letter. You will note the changes are in two colours. The two required changes associated with the admission of the City of Unley as Member Council, are shown in **purple** and are:

- Page 1, Clause 1: Constituent Council Meaning – Addition of ‘City of Unley’
- Pg 4, Clause 21.1: Appointment of Directors - Increasing the number of Directors from eight to nine (one from each Constituent Council and an Independent Director).

The remaining changes that East Waste is proposing (endorsed by the Board) are shown in **blue** and are a combination of correcting minor irregularities, grammatical corrections and updating terminology. No significant intent changes have been made. A summary of the key changes is summarised in Table 1 below.

Table 1: Proposed Key changes to the East Waste Charter

Page No.	Clause No.	Change	Rationale
1	1	Inclusion of <i>Common Fleet Collection Percentage</i> definition	Currently the Charter requires any return of operating surplus to be distributed according to a Council’s shareholding (Clause 61), with all Councils holding an equal share in East Waste (14.29%). Operating Capital in any given year is raised according to Common Fleet Collection percentages, which currently ranges from 3.4% to 21.12%. From an equity point of view it is seen appropriate to return any surplus funds proportionately to how they were raised.

* Continued on following page

Table 1: Proposed Key changes to the East Waste Charter (continued)

Page No.	Clause No.	Change	Rationale
1	1	Amendment to <i>Core Activity</i> terminology	The current Charter tightly controls the activities East Waste can undertake. This amendment retains the scope to waste activities, however expands to include 'behaviour change and ancillary services.' It also allows for waste-related work to be undertaken outside of the Constituent Council area. As an example, the current process to offer or provide our highly sought after 'Why Waste it?' program to other Council's is too onerous for a beneficial return (~\$2-\$5K), so this option is not explored. Key decisions around membership or purchasing of large assets (e.g. Trucks) will still rest with the Board and/or Member Councils.
2	3.6	Removal of clause	Redundant – relates to the very first approval of the Charter.
2	9.1.2 9.2.3	Inclusion of 'behaviour change' and 'ancillary services'	Inclusion of terms in Purpose and Functions given the importance of the activity and 2030 Strategic Plan focus.
4	21.1.1 21.1.3	Council Director and Independent Chairperson term increased from two to three years	Minimise the Administrative requirements associated with appointment or reappointment of Directors and Chairperson and allow for greater continuity.
7	29.11	Removal of operational focus associated with the Operations Assistance Committee	Committee is retained however operational directive detailed within the Charter is not required.
7	29.12	Inclusion of annual Member Council Mayor & CEO's meeting	Value of high-level Mayor's/CEO meeting recognised and important to acknowledge within the Charter.
12	57.4	Removal of clause	Redundant. Related to a bygone Charter.
12	61	Replacing Shares with Common Fleet Collection Percentage	Directly related to first change proposed in this table. Currently this clause requires any return of operating surplus to be distributed according to a Council's shareholding, with all Councils holding an equal share in East Waste (14.29%). Operating Capital in any given year is raised according to Common Fleet Collection Percentage, which currently ranges from 3.4% to 21.12%. From an equity point of view it is seen appropriate to return any surplus funds proportionately to how they were raised.

Resolution to Council

The City of Unley proposal is an extension of a tender process and combined with the market sensitive information contained within the Business Case Review, I request that the information is presented and considered to your Elected Member body confidentially. For the purposes of this I would recommend utilising provision (k) of the confidential orders - (k) *tenders for the supply of goods, the provision of services or the carrying out of works.*

As previously noted, the admittance of an Incoming Council and Charter Changes, must be a unanimous decision of the Member Councils. The resolutions of each Member Council **must be** passed in the same terms, meaning that one or more council cannot impose conditions on the admittance of an Incoming Council or any Charter amendment unless agreed by all Member Councils. Therefore, I provide the following confidential recommendation for all Councils to use on this matter.

That the Council:

1. *Receives the report titled 'xxxxx' from the Chief Executive Officer;*
2. *Endorses the City of Unley becoming a Constituent Council of the Eastern Waste Management Authority, acknowledging the financial, strategic and operational benefits that will be realised, as identified in the independent Business Case Analysis;*
3. *Endorses the proposed amendments to the Eastern Waste Management Authority Charter to facilitate the City of Unley becoming a Constituent Council, namely inclusion of the City of Unley as a Constituent Council and the consequent amendments to the definition of 'Constituent Council' and to Clause 21.1, to increase the number of Directors from eight (8) to nine (9).*
4. *Endorses the revision of Constituent Council shares consequent upon the membership of the City of Unley so that each Council will, from the date of Gazettal of the amended Charter, have a 12.5% equity share in the Eastern Waste Management Authority;*
5. *Notes that the above decisions are subject to the City of Unley obtaining Ministerial approval to become a Constituent Council of the Eastern Waste Management Authority;*
6. *Supports and endorses all other amendments proposed by the East Waste Board to the Eastern Waste Management Authority Charter as shown in Attachment X as part of the prescribed Charter review.*

In the event the Town of Walkerville does not wish to support the City of Unley application to become a Constituent Council of East Waste, it will be sufficient for it to resolve solely in the terms of endorsing Recommendation 1 & 6 above. This will allow the required legislative review of the Charter to pass and progress.

Thank you for your consideration of this matter and I strongly encourage you to read the attached Business Case Analysis in full. This is an extremely important decision for East Waste and Member Councils and if unanimously endorsed will serve to strengthen an already strong, efficient Organisation. With the City of Unley joining, not only are there ongoing significant financial savings for the Town of Walkerville, East Waste will collect and handle approximately 25% of metropolitan Adelaide's kerbside organics and recycling collections

from over 40% of metropolitan Adelaide Councils. The secondary benefits this aggregated purchasing power, education reach and advocacy strength (which is already well regarded) provides cannot be understated.

If you have any questions in relation to the Business Case or wish me to present and/or attend the Council Meeting where these matters are tabled, please do not hesitate to contact me. As mentioned at the start of the letter, it would be greatly appreciated if you could prioritise tabling the City of Unley application to become a Member Council, to your Elected Member Body as soon as possible so we can provide the City of Unley with advice and hopefully, progress with the onboarding process.

Yours sincerely,

EXECUTIVE SUMMARY

In June 2021 East Waste submitted a conforming tender for the collection of all waste on behalf of the City of Unley, concurrent with this and with the unanimous endorsement of the East Waste Board, a non-conforming tender was also submitted on the basis that the City of Unley would become a Member Council of East Waste. The City of Unley has now advised that it wishes to accept the non-conforming tender and become a Member of East Waste, subject to confirmation of the likely cost of the services in FY2023 and their own financial due diligence.

The operations of East Waste are governed by its Charter which also sets out the mechanism for the admission of a new member (Incoming Council), which includes a requirement to analyse the business case for the admission of a new member.

The admission of a new member is consistent with the East Waste 2030 Strategic Plan and the Annual Plan *'where value to existing Members can be realised'*.

The business case demonstrates that the admission of the City of Unley as a member of East Waste would provide a financial benefit to the current members of East Waste in the form of a lower common fleet percentage, which has the effect of lowering the cost of service for each of the Member Councils.

Based on our review of the financial models that supported the non-conforming tender response East Waste identified a financial benefit of circa \$0.700 million to the current Member Councils if the City of Unley was to become a Member Council. This financial benefit was of course based on the assumptions used in the financial model, a number of which – particularly fuel have moved significantly since that time. However, based on our review of the East Waste draft FY2023 budget a financial benefit to current Member Councils of \$0.607 million should be achievable using the Common Fleet charging methodology.

Under the Charter, Member Councils have an equal share in the equity of East Waste, while the admission of the City of Unley as a Member Council would result in the equity position of each current Member being reduced by \$22,000, given the overall financial benefit of admitting the City of Unley as a Member Council is greater than this for each Member Council in year one alone we do not consider it appropriate to charge the City of Unley a joining fee.

With East Waste currently handling approximately 20% of Adelaide's kerbside municipal waste, organics and recycling this market share has enabled East Waste to secure highly competitive pricing for its Member Councils on a number of waste related contracts. Increasing this market share will further strengthen East Waste's aggregated purchasing power.

The admission of the City of Unley as a Member would also provide non-financial benefits to Member Councils such as expanding the reach of East Waste's education and behavioural change programs, strengthening the collective voice of Member Councils as advocates for positive change and increased attractiveness as a partner for grant and pilot programs or research projects.

The admission of the City of Unley as an Incoming Council to East Waste is not likely to give rise to any competition issues or materially change the risk profile of East Waste or its Member Councils.

There are compelling financial and non-financial benefits supporting the admission of the City of Unley as a Member Council of East Waste.

1. INTRODUCTION

1.1 Background

- 1.1.1 East Waste is the trading name of Eastern Waste Management Authority, which was established in 1928. The Authority is a regional subsidiary of the Adelaide Hills Council, City of Burnside, Campbelltown City Council, City of Norwood, Payneham & St Peters, City of Mitcham, City of Prospect and Town of Walkerville.
- 1.1.2 East Waste is governed by a Charter (the Charter) pursuant to Section 43 of the Local Government Act 1999 (Act) and administered by a Board, which includes a director appointed by each Council and an Independent Chair. The Charter sets out the purpose of the Authority is the collection and disposal of waste and recycling in an environmentally responsible, effective, efficient, economic and competitive manner.
- 1.1.3 In June 2021 East Waste submitted two responses to a tender issued by the City of Unley (Unley) for the collection and processing of wastes, recyclables and organics.
 - 1.1.3.1 The first tender was submitted on the basis that Unley would be a client council (the conforming tender).
 - 1.1.3.2 The second tender was submitted on the basis that Unley would become a Member Council of East Waste (non -conforming tender).
- 1.1.4 The non-conforming tender proposing that the Unley become a Member Council of East Waste was unanimously endorsed by the East Waste Board prior to submission.
- 1.1.5 East Waste has since been advised that, subject to further financial due diligence and confirmation of costs, Unley has accepted the non-conforming tender and wishes to become a member of East Waste. This means that the risk in the cost of the services is borne by Unley (as it is for all Member Councils) and the non-conforming tendered prices are indicative only and are non-binding on East Waste.
- 1.1.6 The East Waste Charter sets out the process for a Council to become a Constituent Council (Member Council). Clause 14 of the Charter deals with Incoming Constituent Council which states that amongst other things the application by an incoming Council is to be supported by a '*thorough, realistic, independent and diligent Business Case analysis*'.
- 1.1.7 BRM Advisory has been retained by East Waste to undertake the Business Case analysis required under the Charter.
- 1.1.8 It should be noted that BRM Advisory has previously been contracted by East Waste (and separately by each of its Constituent Councils) and the City of Unley to undertake work on various projects but these are unrelated to this Business Case.

1.2 New Member Councils

The process for a Council to become a Member Council of East Waste is set out in clause 14 of the East Waste Charter which sets out the purpose and functions of the Authority and binds the Authority and each Member Council.

"14. INCOMING CONSTITUENT COUNCILS

14.1 Any council may become a Constituent Council (an Incoming Constituent Council) if:

14.1.1 it makes written application (in a form approved by the Board) to become a Constituent Council and agrees to be bound by this Charter (noting that Shares will change);

14.1.2 its application is supported by a thorough, realistic, independent, and diligent Business Case analysis;

14.1.3 it pays any joining fee or other payment as may be required by the Board;

14.1.4 the Constituent Councils approve the application and revised Shares by Unanimous Decision; and

14.1.5 the Minister approves."

1.3 Scope

The Business Case analysis undertaken examines the impact and relative merits of Unley becoming a Member Council of East Waste. As part of this process we have undertaken the following:

- 1.3.1 Reviewed the East Waste financial calculations used to support the Unley tender submission;
- 1.3.2 Reviewed the proposed East Waste common fleet percentages for Year 1 and those based on the draft FY2023 budget;
- 1.3.3 Assessed the financial implications, if any, in the collection fees that are forecast to be charged to existing Member Councils with the introduction of Unley;
- 1.3.4 Given consideration to a joining fee (in accordance with clause 14.1.3 of the Charter);
- 1.3.5 Considered whether Unley becoming a Member Council is likely to require the approval of the Australian Competition & Consumer Commission (ACCC);
- 1.3.6 Governance matters of note;
- 1.3.7 Risk matters of note; and
- 1.3.8 Others matters deemed relevant to the decision.

2. STRATEGIC RATIONALE

2.1 Strategic Plan

2.1.1 The East Waste 2030 Strategic Plan was endorsed by the Board in September 2020, this sets out a series of bold and ambitious targets (Key Performance Indicators) which East Waste aspires to meet through five Key Objectives and a series of related strategies.

2.1.2 The key objectives in the 2030 Strategic Plan are:

1. Deliver cost-effective and efficient services facilities
2. Maximise source separation and recycling
3. Provide leading and innovative behaviour change and education
4. Help develop a local circular economy
5. Provide leadership

2.1.3 As part of progressing the objective of 'deliver cost effective and efficient services' the following strategies would be specifically advanced if the City of Unley was to become a Member Council.

"1.1 Attract additional services and/or new councils where further economies of-scale can be achieved.

1.3 Partner with other councils and organisations to achieve greater synergies and economies of scale in service delivery."

2.1.4 Admitting Unley as a new Member Council is consistent with the East Waste Strategic Plan.

2.2 Annual Plan

2.2.1 The 2021/22 Annual Plan is the first Annual Plan which has been developed under the East Waste 2030 Strategic Plan.

2.2.2 Consistent with the 2030 Strategic Plan one of the identified key activities in the Annual Plan is to 'Investigate opportunities outside of existing Member Councils' which is defined as 'actively pursue service provision to non-member Councils where value to existing Members can be realised'.

2.2.3 The conforming and non-conforming responses to the Unley tender process were submitted on the basis that each option added financial and non-financial value to the current Member Councils of East Waste.

2.2.4 There is a range of non-financial benefits which could be added to East Waste and the Member Councils by admitting the Unley as a Member Council, these benefits include:

- 2.2.4.1 Building on the partnerships and collaboration ethos that exists between eastern region councils and the strong history of working together to achieve better outcomes for the community.
- 2.2.4.2 Achieving greater collaboration and consistency in kerbside waste services across metropolitan Adelaide, which has a positive impact on waste education and behavioural change.
- 2.2.4.3 Expanding the reach of East Waste's education and behavioural change programs to households and businesses in the City of Unley would support East Waste's goal of reducing contamination rates and ultimately reducing costs.
- 2.2.4.4 With one additional member, East Waste's membership would comprise over 40% of South Australia's metropolitan councils, strengthening its voice in advocating for positive changes such as a 'choice and flexibility' model.
- 2.2.4.5 Expanding East Waste's membership base and market share increases its attractiveness as a partner in grant programs, pilot programs and research projects.
- 2.2.4.6 Having previously serviced Unley until 2014, East Waste already has a high degree of operational knowledge of Unley's service delivery requirements, demographics and geography.
- 2.2.5 Admitting Unley as a new Member Council is highly likely to realise non-financial value to the Member Councils and is consistent with the East Waste 2021-22 Annual Plan.

3. FINANCIAL IMPACTS

3.1 City of Unley Tender

- 3.1.1 From a financial perspective East Waste operates almost entirely on a Common Fleet Costing methodology, whereby Member Councils are charged directly against the time it takes to undertake their services. This is achieved through the utilisation of a specialised cloud-based, real-time GPS based system, supported by detailed reporting capabilities. As a result of this minor variations in the Common Fleet percentages (and therefore apportioning of Common Fleet costs) occur from year to year in response to efficiencies and increased collection costs (e.g. increase in developments, Fire Ban days and events).
- 3.1.2 Specific costs (and rebates where applicable) such as waste disposal and resource processing are directly on-charged, to Member Councils. The time taken to provide services is recorded on a calendar year basis.
- 3.1.3 In preparing the Unley tender response East Waste estimated the additional costs that would be incurred or increased from the delivery of the services to Unley (excluding those costs that are directly on-charged e.g. Processing, bin supply etc.).
- 3.1.4 Consistent with the East Waste Long Term Financial Plan (LTFP) the cost of purchasing fleet to service Unley will be funded by external borrowings from the Local Government Finance Authority.
- 3.1.5 In addition to the costs identified above we expect that there would be some incremental additional costs associated with increased governance obligations and some one-off costs for the admission of a new Member Council. We do not consider these to be material in the context of the on-going financial benefits derived from the admission of Unley as a new Member.

3.2 FY2023 Budget Impact on Common Fleet and Member Council Costs

- 3.2.1 The FY2023 budget contains income provisions of \$436,652 which are deducted from the amount that is recovered from Member Councils under the Common Fleet charging methodology.
- 3.2.2 In addition to the Common Fleet charge paid by Member Councils, they contribute equally to recover the budgeted "Administration Charge". In FY2023 the Administration Charge is budgeted at \$249,184 or \$35,598 per Member Council.
- 3.2.3 The addition of a new Member Council would result in the Administration Charge reducing by \$4,450 per existing Member Council as Unley would be required to contribute to the recovery of this cost.
- 3.2.4 Member Councils also pay 1% of the Common Fleet charge as a Common Fleet Cost Surplus charge. Unley would also contribute to the Common Fleet Surplus charge.
- 3.2.5 Table One shows for each Member Council (and Unley) the change in the Common Fleet percentage and amount collected through the Common Fleet Charge, along with the change in contribution towards the Administration Charge.

Table One: FY2023 Common Fleet %, Charge and Administration Charge Comparison

Council	FY2023 Budget excluding Unley			FY2023 Budget including Unley			Financial Benefit
	CFC %	CFC Allocation	Admin Charge	CFC %	CFC Allocation	Admin Charge	
Adelaide Hills	21.05%	\$ 2,815,519	\$ 35,598	17.94%	\$ 2,694,227	\$ 31,148	\$ 125,742

City of NPSP	16.96%	\$ 2,268,905	\$ 35,598	14.46%	\$ 2,171,161	\$ 31,148	\$ 102,194
City of Prospect	7.88%	\$ 1,054,338	\$ 35,598	6.72%	\$ 1,008,917	\$ 31,148	\$ 49,871
Town of Walkerville	3.41%	\$ 456,068	\$ 35,598	2.91%	\$ 436,420	\$ 31,148	\$ 24,097
City of Unley		\$ -	\$ -	14.75%	\$ 2,215,065	\$ 31,148	
TOTAL	100.00%	\$ 13,376,289	\$ 249,184	100%	\$ 15,015,105	\$ 249,184	\$ 607,398

- 3.2.6 Based on the FY2023 draft budget the cost to Unley costs is forecast to be 7.01% higher than the non-conforming tendered price.
- 3.2.7 In addition, costs totalling \$138,000 have been budgeted above the tendered price for bin tagging, green organics disposal fees, hard waste disposal fees, fuel, bin maintenance and repairs, recycle processing costs and employee costs. These revised cost forecasts are based on updated assumptions in relation to contractual and market factors that will affect the cost of providing waste services. There has been no change to the service levels or service hours included in the Unley tender.
- 3.2.8 These revised costs would be directly recovered from Unley in accordance with East Waste's Common Fleet pricing model and will need to be considered by Unley as part of its financial due diligence.
- 3.2.9 Based on the total hours estimated for the delivery of services to all Member Councils, with the addition of Unley, the adjusted Common Fleet percentages are shown in Table One along with the reduction in the costs that would be recovered from Member Councils.
- 3.2.10 Based on East Waste's FY2023 draft budget, the addition of Unley as a Member Council is forecast to provide a benefit of circa \$0.607 million to Member Councils in reduced Common Fleet costs and shared recovery of the Administration Charge for that reporting period. This benefit arises from Unley sharing in the Indirect Costs of operating the subsidiary.
- 3.2.11 **This forecast benefit takes into account increased operating costs such as fuel prices, depreciation due to depot upgrades and employee costs under the new Enterprise Agreement that will apply to East Waste.**
- 3.2.12 There is always execution risk in on-boarding a new client (or Member Council) which may result in unforeseen expenditure and it may be prudent to provide a financial provision to cover this in FY2023, notwithstanding this the challenge to be given to management is to deliver the identified financial benefits for all Member Councils.

4. JOINING FEE

- 4.1.1 Under the Charter, consideration must be given to whether an Incoming Council is required to pay a joining fee or make any other payments, as determined by the Board.
- 4.1.2 In determining whether a joining fee ought to be paid or not a key consideration is the estimated impact on the equity position of Member Councils by admitting an Incoming Council.
- 4.1.3 Under the Charter the Member Councils' shares in the Authority are equal.
- 4.1.4 Therefore, each of the seven Member Councils has an equity share in East Waste of approximately 14%. The total equity position reported on 30 June 2021 was \$1,219,000. Shared equally between seven members, each Member Council holds approximate equity of \$174,000.
- 4.1.5 Introducing an eighth equal shareholder would reduce each equity share to 12.5% and the approximate equity position of each member would reduce by \$22,000 to \$152,000.
- 4.1.6 The total forecast benefit delivered to current Member Councils in year one is circa \$0.607 million through reduced waste management costs. As a whole, the reduction in the equity position of Member Councils is significantly outweighed by the forecast savings in year one.
- 4.1.7 It should be noted that the distribution of equity only takes real effect upon the exit of a Member Council or upon the winding up of the Authority, at which time an accurate determination of each equity share would be made. Neither of those outcomes are currently within scope.
- 4.1.8 It was on the basis of a total net financial benefit to Member Councils that East Waste resolved not to impose a joining fee on the City of Prospect when it applied to become an Incoming Council in 2017. That same basis can be applied in relation to the City of Unley's application.
- 4.1.9 Another consideration in relation to applying a joining fee or any other payments is the recovery of direct costs associated with the admission of an Incoming Council. These costs may include legal fees and Government Gazette publishing costs.
- 4.1.10 The admission of a new Member would require an amendment to the Charter and the costs associated with the Gazettal of such an amendment are in the order of \$10,000, together with any external costs incurred in undertaking the review.
- 4.1.11 Given that the Charter is (past) due for a review in any event and any application from the City of Unley has arisen from a direct approach by East Waste (through a tender process), it is recommended that these costs be absorbed by East Waste.
- 4.1.12 On the basis outlined above, a joining fee is not recommended should the City of Unley be admitted as an Incoming Council.

5. REGULATORY ISSUES

5.1 National Competition Policy

- 5.1.1 In 1995, following an Independent Committee of Inquiry into a National Competition Policy (Hilmer Report), leaders of governments signed the three agreements (Competition Principles Agreement, Conduct Code Agreement, Agreement to implement the National Competition Policy and Related Reforms) in which they committed to a program of economic reforms. This program was known as the National Competition Policy.
- 5.1.2 Amongst the National Competition Policy reforms was the introduction of 'competitive neutrality' so that privately-owned businesses can compete on an equal footing with those owned by Government. Competitive neutrality seeks to enable fair competition between local government (including subsidiaries of local government) and private sector businesses, by neutralising any advantages or disadvantages that the government businesses may experience, simply as a result of government ownership.
- 5.1.3 National Competition Policy only requires that competitive neutrality be introduced for 'significant' government businesses and, where the benefits of competitive neutrality outweigh the costs.
- 5.1.4 Whether a business is deemed to be significant or not depends on the size of the business and its importance in the particular market.
- 5.1.5 The Australian Competition & Consumer Commission (ACCC) is the competition regulator in Australia and is the body which would determine whether admitting the City of Unley as a member of East Waste would lessen competition to the extent that such conduct would or might constitute a cartel provision within the meaning of Division 1 of Part IV of the Competition and Consumer Act 2010 Act and may substantially lessen competition within the meaning of section 45 of the Competition and Consumer Act 2010.
- 5.1.6 In 2018 the ACCC provided a determination that enabled Adelaide City Council and the Cities of Charles Sturt, Marion and Port Adelaide Enfield (the Participating Councils) to jointly procure the collection of domestic waste, recyclables and organics through kerbside collection, including the supply and maintenance of mobile garbage bins.
- 5.1.7 The determination was based on a range of factors including that the Participating Councils considered that the proposed joint procurement will provide value for money, improve waste management and reduce waste, to achieve environmental and economic benefits for their communities. The ACCC was satisfied that these likely benefits to the public would outweigh the detriments to the public from the joint procurement.
- 5.1.8 In the event that the ACCC sought to examine whether admitting the City of Unley as a member of East Waste would lessen competition to the extent that such conduct would or might constitute a cartel provision, East Waste should be in a position to rely upon the arguments previously used by the Participating Councils.

5.2 Competitive Neutrality

- 5.2.1 Competitive neutrality requires that the prices charged by local government businesses should aim to recover the full costs of a business activity, including:
- 5.2.1.1 the direct costs of providing the service and an appropriate proportion of indirect costs;
 - 5.2.1.2 all relevant taxes or tax equivalents;
 - 5.2.1.3 a commercial level of interest payments; and
 - 5.2.1.4 a commercial rate of return (over a reasonable period).
- 5.2.2 The prices charged by East Waste to the Member Councils reflect the following principles of competitive neutrality.
- 5.2.2.1 East Waste currently recovers the full direct cost of providing the services together with an appropriate portion of indirect costs (through the Common Fleet percentage).
 - 5.2.2.2 Finance is obtained through the Local Government Finance Authority (LGFA) and interest is recovered from Member Councils (although we do note that the interest rates applied by the LGFA do not appear to have a similar margin as would be applied by private sector lenders to reflect a level of commercial risk).
- 5.2.3 Should the ACCC seek to determine that the principles of competitive neutrality should apply we would argue that the benefits of applying full competitive neutrality principles would not outweigh the costs of doing so.

6. GOVERNANCE ISSUES

6.1 Charter

- 6.1.1 East Waste is a regional subsidiary established under Section 43 of the Local Government Act 1999. It operates pursuant to a Charter that is adopted by Member Councils and approved by the Minister for Local Government.
- 6.1.2 Changes in the membership of East Waste over time are envisaged as the Charter makes specific provision for incoming or outgoing constituent councils.
- 6.1.3 All Member Councils are bound by the provisions of the Charter.
- 6.1.4 The non-conforming tender proposed that the City of Unley become a Member Council and equal shareholder of East Waste.
- 6.1.5 If admitted on these terms, the City of Unley would also be bound by the provisions of the Charter and enjoy the same rights as other Member Councils.
- 6.1.6 The City of Unley would be required to appoint a Director and Deputy Director to the Board.
- 6.1.7 This would bring the total membership of the Board to nine Directors, which is a size that supports sound decision making and does not conflict with the principles of good corporate governance.
- 6.1.8 The Act provides that each member of a regional subsidiary board present at a meeting has one vote. A decision is carried by the majority of the votes.
- 6.1.9 As the Act prohibits the Presiding Member (Chair) of a regional subsidiary board from having a second or casting vote, increasing the size of the Board to nine members addresses the existing anomaly where it is possible that the Board may be unable to reach a majority decision.
- 6.1.10 Increasing the number of Board positions from eight to nine would require a minor consequential change to Clause 21.1 of the Charter.
- 6.1.11 The definition of 'Constituent Council' in Clause 1 of the Charter would need to be amended to include the 'City of Unley'.
- 6.1.12 The changes required to the Charter to formalise the admittance of the City of Unley would be minor and would not create disruption to the effective governance of the subsidiary. There are no material governance risks to East Waste or its Member Council arising from this action.
- 6.1.13 These minor amendments can be progressed as a standalone action, or East Waste may consider incorporating these amendments into the period review of the Charter, which is now (past) due.

6.2 Member Council considerations

- 6.2.1 The admittance of an Incoming Council must be a unanimous decision of the Member Councils. The resolutions of each Member Council must be passed in the same terms, meaning that one or more council cannot impose conditions on the admittance of an Incoming Council unless agreed by all Member Councils.
- 6.2.2 The processes required by Member Councils to facilitate these changes are not outside of the ordinary operations of a Councils and are not complex or resource intensive to progress.
- 6.2.3 Having regard to Clause 14.2 of the Charter, it is recommended that East Waste provide the City of Unley with a detailed Due Diligence report prior to a formal application being received which documents all relevant decisions or steps taken by East Waste in relation to existing or future debts and liabilities for which the Constituent Councils are jointly and severally liable.
- 6.2.4 In accordance with the Act, the approval of the Minister is required before a Council can become a constituent member of a regional subsidiary. This approval should be sought after all other relevant requirements of the Charter (particularly the unanimous approval of the Member Councils) have been satisfied.

7. RISK MANAGEMENT

7.1 Risk Analysis

- 7.1.1 East Waste has adopted a Risk Management Policy.
- 7.1.2 East Waste has also adopted a Risk Management Framework that sets out a process for assessing, treating and monitoring identified risks.
- 7.1.3 The Risk Management Framework provides that Strategic and Business Planning must adequately consider the risks facing East Waste in setting and pursuing its objectives and the effectiveness of systems that are in place to manage and communicate those risks.
- 7.1.4 Under the adopted Risk Management Framework, the East Waste Board is expected to:
- a) give adequate consideration to risks when setting East Waste's objectives;*
 - b) understand the risks facing East Waste in pursuit of its objectives;*
 - c) oversee the effectiveness of systems implemented by the organisation to manage risk;*
 - d) accept only those risks that are appropriate in the context of East Waste's objectives; and*
 - e) consider information about such risks and make sure they are properly communicated to the appropriate stakeholder or governing body.*
- 7.1.5 As part of the process of submitting a non-conforming tender East Waste undertook a high-level risk analysis in accordance with the Policy and Framework.
- 7.1.6 Details of the risk analysis undertaken by East Waste should be incorporated into reports to the East Waste Board and Committees, and in communications with Member Councils about the non-conforming tender.
- 7.1.7 Member Councils should also consider their own risk policies and frameworks in determining whether or not to give their support to the admission of the City of Unley as an Incoming Council.
- 7.1.8 The risk analysis undertaken by East Waste determined that the proposal outlined in the non-conforming tender does not materially alter the key external risks identified in East Waste's Risk Register:
- 7.1.8.1 damage to brand and image,
 - 7.1.8.2 regulation / legislative changes,
 - 7.1.8.3 growing competition in waste collection,
 - 7.1.8.4 political uncertainty,
 - 7.1.8.5 market environment changes, and
 - 7.1.8.6 technology innovation and evolution.

- 7.1.9 These macro level risks are likely to retain the same profile and require the same controls regardless of whether the City of Unley is admitted as an incoming Council.
- 7.1.10 The risk analysis identified the following potential financial risks:
 - 7.1.10.1 The capital cost of the purchase of fleet trucks and equipment is understated.
 - 7.1.10.2 There is a material variation between budgeted and actual costs.
 - 7.1.10.3 The hours required to deliver the services for Unley have been materially understated.
 - 7.1.10.4 Unable to deliver services in the timeframe planned due to delays in the delivery of fleet trucks delivery.
 - 7.1.10.5 Additional resources are required to deliver the service e.g. greater impact on customer service staff than expected
 - 7.1.10.6 Labour shortages (the ability to secure drivers)
 - 7.1.10.7 Operational risks of delivery

7.2 Risk Controls

- 7.2.1 Identified risks would be treated and monitored in accordance with the East Waste Risk Management Framework and current risk management practices. No risks have been identified through the Risk Analysis that sit outside of the risk tolerance levels adopted by East Waste.
- 7.2.2 The financial risks are controlled by the systems and procedures that East Waste has in place for the admittance of an Incoming Council in its Charter, such as the application being supported by *a thorough, realistic, independent, and diligent Business Case analysis.*
- 7.2.3 Financial risks of understated capital costs or hours required to deliver services are mitigated by East Waste's 'full cost recovery only' pricing model for Member Councils outlined in the non-conforming tender. Common Fleet percentages are adjusted on an annual basis to reflect the actual costs of the delivery of services and share of the overheads, mitigating the risk that Member Councils would be subsidising the costs of service delivery to another council.
- 7.2.4 While some movement in costs at the margins is to be expected due to market factors (fuel costs etc), the likelihood that the costs to Member Councils would be impacted to a point where there is no longer a net positive financial impact of admitting the City of Unley is assessed as being 'Low' on the adopted East Waste risk matrix.
- 7.2.5 The admittance of an Incoming Council creates some risk of misalignment of organisational values, priorities and expectations. In the case of Unley, this risk is deemed to be 'Low' given there is a history of positive collaboration and engagement with most Member Councils through the Eastern Region Alliance.

- 7.2.6 An Incoming Council may only be admitted with the approval of the Minister for Local Government.
 - 7.2.6.1 It is important that an application to the Minister be made in the correct form once all other requirements of the Charter have been satisfied.
 - 7.2.6.2 We note that the proposal to admit an Incoming Council aligns with the *Principles to be observed by council* in section 8 of the Act which promote collaboration and resource sharing.
- 7.2.7 There is some risk that the approval to admit an Incoming Council may be delayed beyond the timeframe for commencing services which has the potential to produce result in a short-term service disruption.
 - 7.2.7.1 This risk can be mitigated by a short-term contract to provide services to Unley and participation on the Board in an observer role until formal approval to join East Waste is obtained.
