7.1 Cr MaryLou Bishop – ERA Water Board Meeting

8. QUESTIONS FROM THE GALLERY

8.1 Mr James Melluish

8.1.1 Why is Cr Nenke's motion 13.1 to do community survey being considered now when it should have been done prior to any revocation motions, and does this invalidate council's current position applying for Ministerial land status change approval? According to LGA 1999 sect. 194(2)(a)(iv) (document page 169) Council needs "(iv) an assessment of how implementation of the proposal (to revoke Community land status) would affect the area and the local community;"

Note that community feedback has been overwhelmingly negative towards revocation yet disregarded by majority of councillors. Given rates were not impacted for Council Chamber redevelopment, it's spurious to propose raising rates for a different Council-owned site.
Response provided by Mayor Fricker

Council undertook an assessment of the perceived community impacts as part of the Community Land Management Plan adoption, which was deemed to be consistent with the provisions of the Local Government Act 1999 and supported by Council at their January 2020 meeting. Upon formal submission, the Minister will make a final determination as to the validity of the process followed.

It is important to note that there is a difference between the term Community Land Status and Community Zone. While Council have previously resolved to revoke the Community Land Status from the building footprint under the Local Government Act 1999, under the Walkerville Council Development Plan (consolidated 6 October 2016) and the Development Act 1993 the site retains its Community Zoning and the associated permitted use protections.

8.1.2 Given the new Walkerville oval redevelopment seeks to provide for multiple sports for the community, why has YMCA’s gymnastics program with 650 current junior enrolments, (closer to 700 including casual participants PLUS a wait list) been overlooked, while other clubs in proposal have an average of 250 participants (chart on agenda p579)?

If Council’s concern is that the current 39 Smith St building is needing repair/overhaul this number of participants ought to be considered in alternative development plans.
Additional funding may be sought through state and national sports development grant programs.

Also note that building redevelopment plans from YMCA have been proposed to and rejected by Council previously - obviously subject to lease extension to make capital expenditure worthwhile long-term. Glad to see the idea now somewhat back on the table.

Also given the State Liberal government is wanting Jobs and Growth, not renewing the YMCA lease- especially before any alternative site or site use is available- means a loss of jobs in the area as well as significant reduction in traffic and nearby spending eg. shops near roundabout (see previously discussed statistic of >60,000 site visits per year).

Response provided by Mayor Fricker

The chart appearing on page 579 of the Council agenda reflects the actual responses received from the community groups, who chose to participate and provided their submissions. These groups were:

1. Walkerville Sports Club
2. Walkerville Junior Football Club
3. Walkerville Bowling Club
4. Walkerville Netball Club
5. Walkerville Softball Club.
Had INEA YMCA provided a submission in response to the Community Organisation survey, that data would have been included in the Consultation Report prepared by One Eighty Sport & Leisure Solutions.

8.2 Mr Colin Organ

The paper for the Agenda Item 14.1.2 – Strategic Property Review – 39 Smith St Asset, incorrectly references concrete cancer which is not mentioned in the G-Force building report which states that ‘The building is of solid construction, mainly concrete block work with some brick sections and upper level light weight cladding with an iron clad roof. There is minimal movement through out with the majority of the block work in good condition other than a section to the west adjacent the kitchen store and female toilets that has been noted in this report. Floor structures are sound with little to no movement noted during the investigation… General condition throughout, although sound and solid, is of a worn and aged nature which is expected of a building of this age.’ In addition, financial estimates in the paper appear excessive, for example the YMCA sanded and resealed the entire stadium for approximately $2k, while the report quotes $8k to do the same for a small program room. Will Council request the Administration to correct this paper to ensure that councillors are provided with accurate information on which to make their decisions?

Response provided by Mayor Fricker

Following the receipt of the G-Force report, and acknowledging that the report suggested that the building was of solid construction, Administration sought clarification as to why there was notable cracking occurring in the walls and roof. It was suggested that the cracking and deterioration was likely a sign of concrete cancer; particularly as the damage has occurred adjacent to wet areas (toilets and shower area) and areas where poor external draining was identified.

The G-Force report, in relation to photograph numbers 76, 77 and 78 states that ‘if cracks reappear or open up, have an Engineer investigate possible causes and recommendations’. This is consistent with Recommendation 2 of Agenda Item 14.1.2.

With regard to the costs, G-Force Building & Consultants have provided indicative costs based on their professional expertise, as such, Council will be guided by their advice.

8.3 Mr Llew Jones

I consider the approach of the Town of Walkerville in relation to the Community Services offered at 39 Smith Street to be manipulative, misleading, biased and opaque.

Are the Elected Members satisfied that they have interrogated information provided to them by the Administration in relation to:
• the proposed revocation of community land status
• the Sports Precinct
• the proposed termination of the lease over 39 Smith Street,
to a sufficient extent to support their actions in any future regulatory reviews available to residents and other stakeholders (possible reviews include reviews by the Premiers Office, and relevant Ombudsman and Commissioners)?

Response provided by Mayor Fricker

Having considered the question put by Mr Jones I refer to clause 14.1 of the Council’s Public Questions Time Policy which states:

‘The Presiding Member may reject a question, if in the view of the person presiding, the question:

• is offensive or defamatory in nature
• relates to the competence or personal affairs of an Elected Member or a member of the Administration.’

Given the nature and tone of the question I have determined that the question will not be answered.

8.4 Ms Jule Strefford

Currently the Council is considering development of a Rec Centre if it received substantial funding. Tonight there is a recommendation being put to Council to not renew the YMCA lease.

What contingency plans does the Council have/considered to cater for the 60,000 elderly and families and youth who currently use the YMCA if neither centres go ahead/remain?

Response Provided by Mayor Fricker

Should the Council support the recommendation as presented in Agenda Item 14.1.2, the Council will be going out to public tender in the near future to seek expressions of interest for the site and INEA YMCA will be able to participate in this process.
9. QUESTIONS WITHOUT NOTICE

9.1 Dragon Tree at Hawkers Reserve - Cr MaryLou Bishop

The remaining Dragon Tree at Hawkers Reserve appears to be in very poor condition. Has an arborist looked at the tree?

Administration Response

Administration have been monitoring the health of the tree since removal of the ‘other’ tree. It has been up and down and it is noted that the tree is currently in decline. Administration will seek updated advice from its arborist and seek guidance from other experts as was done previously. We will report back to Council.

9.2 Various Questions - Cr James Nenke

9.2.1 Will Council undertake the Walkerville Oval redevelopment works / Community Hub, without securing Government Funding?

Response provided by Mayor Fricker

This will be a decision of Council.

9.2.2 Has the Community Land revocation been approved by the State Government, and has Administration considered the risk exposure to Council should the revocation be rejected and the current tenant relocates?

Response provided by Mayor Fricker

Should the State Government reject the Community Land revocation the land would still be able to be leased with a maximum lease of 42 years.

9.2.3 As per agenda item 14.1.2 and with regard to the stated 5-10% increase in Council rates for the 2020/21 Financial Year:

9.2.3(a) what would the ongoing annual depreciation rate and operating expense be to Council for the Walkerville Oval Community Hub if constructed (assuming the useful life of most buildings is approximately 60 years), and

9.2.3(b) what impact did the Herbert St Medindie reconstruction cost add to the 2019/20 Council rates, and how many other roads in Medindie with slate Kerbing require similar logistics with reconstruction?

9.2.3(c) Is it possible to defer other Upgrade or New projects in the 2020/21 financial year to reduce such an increase to rates?

Administration Response

(a) The question set out in 9.2.3(a) was taken on notice and accordingly the response is provided below.
The ongoing annual depreciation rate and operating expense to Council for the Walkerville Oval Community Hub would be difficult to determine without knowing the actual cost and components of the building. However, based on a value of $10,000,000 over 60 years the depreciation would be approximately $166,667.

(b) The question set out in 9.2.3(b) was taken on notice and accordingly the response is provided below.

The impact on rates for Herbert Street reconstruction was 0.001%. There are a number of roads within Medindie, Walkerville and Gilberton that have bluestone kerb and/or guttering. There are currently no planned full road reconstructions in the next 5 years that contain bluestone kerb, rather isolated sections as part of kerb renewal works and the road reseal program.

(c) The deferral of projects in 2020 / 2021 financial year is a decision of Council and cannot be pre-empted by Administration.

9.2.4 With regard to the LTFP agenda item 14.1.4 - how can Council’s Asset Sustainability Ratio be 100%, when depreciation is consistently higher than our renewal budget, and the majority of our Building assets appear to have had very little capital replacement works over the years?

Administration Response

The Asset Sustainability Ratio calculation is the net asset renewals divided by the Infrastructure & Asset Management Plan expenditure. This is in line with the model financial statements as recommended by SALGFMG and approved by LGA. Using depreciation as a measure of renewal has not been used for some years as it is not a reliable measure.

9.3 Large Gum Tree - Cr James Williams

A large gum tree limb in INEA car park has recently dropped a limb. Has a safety audit been conducted on that tree?

Administration Response

There was a tree report carried out by an external arborist back in September 2017. In summary, the river red gum is a significant tree worthy of preservation. It is in good health and poses a low risk to the users of the site. The limb failure was due to extreme heat and Council’s arborist believes that there is no elevated risk as a result.

Administration is seeking guidance from our Insurer to determine if an updated tree report is required and/or the above information is satisfactory.

12. MOTIONS WITHOUT NOTICE

12.1 Motion – Cr Nenke – Strategic Sites

Moved: Cr Nenke
Seconded: Cr Ashby

CNC264/19-20

That Administration engage BRM Advisory to prepare a Prudential Report that will provide a strategic direction to Council by assessing risk and financial modelling of both the 39 Smith Street and Walkerville Oval redevelopment sites. The report is to consider:

- How the two sites relate to each other in both a strategic financial sense – for example using the commercial opportunity at 39 Smith Street to fund the future Oval masterplan.

- The impact on the community by losing the current services provided by INEA and to consider how or if the proposed Community Hub at the Oval redevelopment could replicate these services.

- The potential of investing into the 39 Smith Street building and what commercial return could be realised.

- The likely cost of a new building at the Oval site, with expected operational costs including annual depreciation expense.

- What financial return to Council could be realised from the Oval redevelopment.

- The management model needed for each of the sporting clubs to share the facility.

The CEO to find opportunity in the 2019/20 operational budget to fund this project through budgetary savings or deferral of projects.

13.1 Motions with Notice – Cr James Nenke

Moved: Cr Nenke
Seconded: Cr Ashby

Administration to engage a Research Marketing Company to conduct a statistically relevant survey of only Walkerville residents. The selected company to assist in developing a fair and balanced survey that will capture the resident’s views regarding the following:

- Do they, have they, or would they use the facilities available under the current YMCA management?
• Their perception of the importance and satisfaction of the services provided at the site currently occupied by the YMCA.

• Level of support for the site to continue to provide similar services.

• What type of future use the community would support with options provided that are approved under the current zoning of the land. (options presented)?

• Does the community want best financial return on Council land to reduce their rates or willing to share the cost for regional services?

• Are they willing to support a regional facility that is not just for Walkerville residents?

Administration to fund this survey by using $10,000 by deferring an operational projects to 2020/21.

Amendment to Motion

Moved: Cr Williams
Seconded: Cr Furlan

CNC265/19-20

14. REPORTS REQUIRING DECISION OF COUNCIL

14.1 Strategy

14.1.1 Draft Phase Three – Planning and Design Code Submission

Moved: Cr Furlan
Seconded: Cr Joshi

CNC267/19-20

1. Council authorises the Chief Executive Officer to finalise the Walkerville Council Planning and Design Code Phase 3 Submission appearing as Attachment A to this report, with the following inclusions, and submit to the State Planning Commission by 28 February 2020:

   • To minimise building massing at the interface with residential development outside of the zone (where the zone boundary is not along a street), buildings should be constructed within a building envelope provided by a 30 degree plane, measured from a height of 3 metres above natural ground level at the allotment boundary of a residential allotment within a residential zone.

2. That Council writes to the Minister for Planning and the State Planning Commission, providing Council’s support in delaying the implementation of the Code and request that any amendments to the draft Phase Three Planning and Design Code be further consulted on with the community prior to its implementation date.

CARRIED

14.1.2 Strategic Property Review – 39 Smith Street Asset

Moved: Cr Williams
Seconded: Cr Coleman

CNC268/19-20

That the recommendation in item 14.1.2 Strategic Property Review – 39 Smith Street Asset as detailed below be deferred to an informal gathering to be held before the March Council meeting and that the original recommendation be presented to the Ordinary meeting of Council in March 2020:

1. That pursuant to the requirements of s 20J (1) (b) of the Retail and Commercial Leases Act 1995, Council officially advises the current Lessee (INEA YMCA) that at the end of the lease term (viz 31 December
2020) Council does not propose to offer a renewal or extension of the existing lease;

2. That Council engage Professional Service Contractors to further investigate the condition of the building, including the identified concrete cancer and general infrastructure on the land (for example, any of works and costs associated with further repairs and the installation of a suitable storm water drainage system);

3. That Council instructs Administration to undertake the following:
   
a. an open Expressions of Interest Tender process seeking out parties whom may have an interest in entering into a long-term lease over the whole or part of Certificates of Title 5651/912 (Fuller Street 1), 5274/937 (Fuller Street 2), 5796/887 (Fuller Street Works Depot), 5728/637 (Smith Street 1) and 5838/95 (Smith Street 2) for the purpose of potentially investing in and redeveloping the site/building for the benefit of the community; and
   
b. as part of the 2020/21 Annual Budget Review process Administration seek direct resident feedback as to whether a Rates increase of between 5% and 10% would be supported to fund the required capital and repair works to the building located at 39 Smith Street Walkerville;

4. That following the completion of Recommendation 1 to 3 a subsequent ‘options’ report be returned to Council for consideration and determination;

5. That Council does not grant any new lease, licence and/or occupancy rights to the building/site until such time that all reports and risks (including financial and legal) associated with the strategic direction of the site have been considered and determined.

6. That Council notes further information in relation to this matter is presented in confidence, pursuant to section 90(3)(h) of the Local Government Act, 1999 as the information contained therein, is legal advice, provided to Council, which is subject to professional privilege.

CNC299/19-20

Recommendation (Public)

Pursuant to s90(3)(h)

Pursuant to section 90(2) of the Local Government Act 1999 the Council orders that all members of the public except, Chief Executive Officer Kiki Cristol, Group Manager Corporate Services Katy Bone, Group Manager Planning, Environment & Regulatory services Andreea Caddy, Group Manager Assets and Infrastructure Joshua Bowen, Group Manager Customer Experience Danielle Garvey, Business Analyst (Property & Contracts) Scott Reardon and Council Secretariat Vanessa Davidson, be excluded from attendance at the meeting for Agenda Item 19.1 – Strategic Property Review – 39 Smith Street – Attachment C.

The Council is satisfied that, pursuant to section 90(3)(h) of the Act, the information to be received, discussed or considered in relation to this Item is legal advice provided by Council’s Lawyers, which is subject to professional privilege and relates to Agenda Item 14.1.2.

The Council is satisfied that the principle that the meeting be conducted in a place open to the public has been outweighed in the circumstances because the advice provided is subject to professional privilege.
