9. QUESTIONS WITHOUT NOTICE

9.1 Impact of COVID - 19 on Operations - Cr Rob Ashby

How will the organisation minimise the risk of the coronavirus impacting business and what impact will this have on the delivery of the 2019/2020 budget?

Administration Response

The CEO emailed all staff and Elected members regarding protocols and precautionary measures that are to be followed, further events and programs have been cancelled, which will be reviewed again in 30 days. The LGA will be holding a briefing tomorrow (Tuesday 17 March) at 10am.

Administration is hoping that by Budget Workshop 2 we will have more information. Some suppliers have already informed us that they will not be attending at the Civic and Community Centre. We are reviewing the need to attend external meetings and all non-critical meetings will be rescheduled.

If COVID-19 escalates, it could have a direct impact on service delivery. The Civic and Community Centre may be closed as a result of health escalation warning s/ advice. The CEO will keep Elected Members informed by means of email.
9.2 Establishment of By-Law – Cr James Williams

Is it possible for Council to create a By-Law in order to postpone Council meetings?

Administration Response

The only mechanism available to Council is to formally resolve to cancel / postpone monthly meetings until further notice.

9.3 Ability for Staff to Work from Home – Cr James Nenke

Does Administration have the capacity to allow staff to work from home?

Administration Response

While the Administration does have a Work from Home Policy the CEO has determined not to enact this provision in response to COVID-19 as it cannot be implemented across the whole organisation, making it iniquitous.

9.4 Payment of Rates – Cr James Williams

What measures does the Administration have in place if the COVID-19 prevents ratepayers from paying their rates?

Administration Response

This is highly unlikely. However, the situation will be monitored should it become an issue and affect our revenue.

10. QUESTIONS ON NOTICE

10.1 Walkerville Oval – Cr MaryLou Bishop

After the winter of 2014 the Walkerville Oval was in appalling condition. After much consultation and advice from grass management companies the Council at the time resolved to expend in approximately $300,000 to upgrade the drainage and reticulation systems, we did not replace the grass as that project would have cost over $650,000.

We were told at the time that with imminent supply of ERA Water problems regarding the grass, drainage and reticulation would be solved. ERA Water has been on the oval for 6 months have seen an improvement?

Administration Response

The overall condition of the oval has steadily improved since significant works were undertaken renewing the underperforming drainage and irrigation system. The combination of major works has allowed Administration to improve its oval management including more frequent verti-draining, top dressing and the appropriate application of fertilizers.
The addition of ERA Water in recent times has allowed Administration to ‘shandy’ the water quality mix to reduce the high salinity content found in the existing bore. Administration works with relevant stakeholders in managing the oval but it’s important to note that the oval experiences constant use all year round and has limited ‘rest’ periods for additional maintenance outside of scheduled maintenance breaks.
