

heritage plaques grants

application form: individual

individuals (all ages) can apply for:

The desired outcome for our boutique Council is to highlight our Township's rich and vibrant culture. By increasing the number of heritage plaques in the Town of Walkerville, Council will formally recognise its local and state history, ensuring it is displayed, enhanced, celebrated and most importantly, protected by the appropriate legislation.

Heritage plaques showcase the historical significance of buildings that make a valuable contribution to the historic character of Walkerville. The heritage plaques are not only limited to residential dwellings, but also include a range of buildings, landmarks and statues, plants/trees and kerbing.

Heritage: A site that has been identified in the Development Plan to meet the relevant criteria for Local or State heritage listing, in accordance with the Development Act 1993 and the Heritage Places Act 1993.

heritage plaques grants

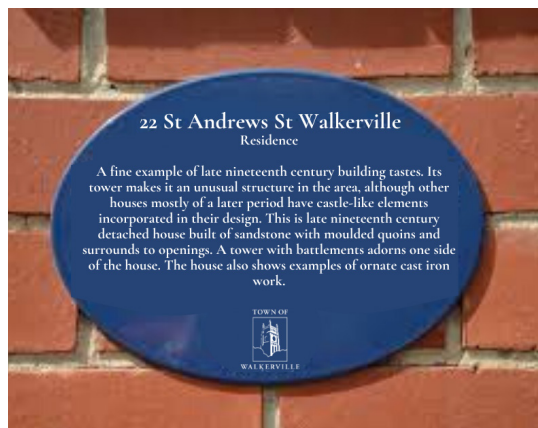

application form: individual

conditions of the funding

I, being the authorised person making the declaration, confirm and agree to the following:

Plaques are installed at a charge (price based on application) by an experienced stone mason engaged by Council or the Applicant.

In most circumstances, plaques will be fixed to the building or fence by drilling two or four small holes (depending on the type of plaque) into the installation surface. Lugs are then fixed into the holes with non-damaging adhesive. The installation method may vary depending on the surface.

The plaques must be in plain sight of the footpath allowing interaction between the building, the plaque and the public. The location must take into consideration the heritage buildings fabric, size and style and have minimal physical impact on the building.

Where Applicants seek to engage their own installer/stonemason, fixing methods require Council verification.

We further understand that any variation from the above conditions will require negotiation with the Town of Walkerville.
